We add, moreover, that the recipes are all reasonable, and never in any instance extravagant. They do not bid us sacrifice ten pounds of excellent meat, that we may get a couple of quarts of gravy from it; nor do they deal with butter and eggs as if their cost were nothing. Miss Acton's book is a good book in every way; there is right-mindedness in every page of it, as well as thorough knowledge and experience of the subjects she handles."—*Medical Gazette.*

G. BELL and CO., Steam Mills, 3, Wellington-street, Cornwall-street.

ZINC PAINTS.—F. BROWN and CO. beg to call the attention of the public to their COLOURED PAINTS and DRIERS, prepared from Oxide of Zinc, of which they are Sole Patentees and Manufacturers, and for which a Medal has been awarded by the Royal Commissioners for the Great Exhibition.

Zinc Colours are adapted to the finer purposes of the artist, and to the works of the decorator, coach painter, paper stainer, and floor-cloth manufacturer, as well as to those of the ordinary painter; and are equally applicable to works in oil, varnish, distemper, &c.; they are superior in durability and brilliancy to all other paints, and acquire a hardness and polish equal to that produced by varnish on coach panels; they are perfectly innocuous, and are unaffected by atmospheric changes, sun-light, sulphuretted hydrogen, foul air, &c. &c., and they are more economical than lead paints.

Zinc Colours are at present to be obtained in a pure state only from the Patentees and Manufacturers, 13, Berkeley-place, Pimlico, London.

HUBBUCK'S PATENT WHITE ZINC PAINT.—The PERMANENT WHITE of the ancients, by its continuance hitherto restricted to the use of the artist, is now offered at the price of the ordinary white lead paint.

Four years since the proprietors placed their manufactures on a large scale, and put this elegant Paint in competition with White Lead.

Its confessed superiority over every other paint hitherto known brought forward various imitations.

These inferior productions, frequently made from zinc ores containing lead, arsenic, and other deleterious material, alike injurious to health, deficient in body, and reducing the preservative properties for which the original paint stands pre-eminent.

In justice to the proprietors these should not be confounded with the original, even though sold under the pretence, that it is all the same.

HUBBUCK'S Paint is entirely free from any injurious properties whatever, it is healthful in the manufacture, healthful in use, and healthful to occupants of rooms newly painted with it.

As a guard to the painter against the substitution of the inferior paints, each cask is stamped

"HUBBUCK, LONDON, PATENT;"

and if the cask has not been so marked, the reason is obvious.

A Circular with full particulars may be had of THOMAS HUBBUCK and SON, Colour Manufacturers, opposite the London Docks.

EVANS'S MINERAL OXIDE PAINTS.

Office, 8, Philpot-lane, London.

Green	32s. per Cwt.

Packages of 1 Cwt. and upwards are not charged.

These preparations of the Mineral Oxide Paints will be found more durable, and at the same time more economical than any other paint.

They are proof against atmospheric action, gases, and salt water, of which the following testimonials are sufficient evidence.

"8, Billiter-square,
16, April, 1851.

"GENTLEMEN,

"The result of the trial of your Mineral Oxide Paints on the Buoys manufactured by us for the service of the Honourable Commissioners of Trinity House, has been very satisfactory, both as it respects the quality and the durability of the Paints, and the economy of cost.

"You are at liberty to make use of this testimonial in their favour. "We are, Gentlemen, your obedient Servants,

(Signed) "BROWN, LENNOX, and CO."

London, April 28, 1851.

"SIR,

"We have used your paint on the various gas works which we have constructed during the last seven years, and have no hesitation in stating it to be the best and most durable covering for iron.

"We shall continue to use and recommend it as heretofore.

Signed "WESTWOOD and WRIGHTS."
